

JavaScript Quick Revision Cheatsheet

Control Flow

if/else:

if (age >= 18) {...} else {...}

switch:

switch(fruit) {case "apple": ...; break; default: ...;}

Loops:

for (let i=0;i<3;i++) {...}

while(condition) {...}

do {...} while(condition)

for (let num of arr) {...}

for (let key in obj) {...}

Functions

Declaration: function greet(name) {...}

Expression: const f = function(name){...}

Arrow: const f = (name) => {...}

Scope:

Global vs Local vs Block

Closures:

function outer(){ let c=0; return ()=>++c; }

Objects

let car = {brand:"Tesla", drive:function(){return this.brand}}

this: Refers to current object.

Prototype:

function Animal(name){this.name=name;}

Animal.prototype.speak=function(){...}

Arrays

map: arr.map(x=>x*2)

filter: arr.filter(x=>x%2===0)

reduce: `arr.reduce((a,x)=>a+x,0)`

Manipulation:

push, pop, shift, unshift
